Research Objective

I am a Researcher at GenGenAI, where I work on research and development for Generative AI systems while fulfilling my military obligation. Before joining GenGenAI, I received my Ph.D. in Computer Science and Engineering from POSTECH, where I conducted research in the Computer Vision Lab under the supervision of Prof. Suha Kwak. My research has focused on data-efficient learning in computer vision and deep learning, with particular interests in multi-modal knowledge distillation, semi-supervised learning, self-supervised learning, and their practical applications.

Education

POSTECH Feb. 2021 – Feb. 2026

Ph.D. in Computer Science and Engineering

- Supervised by Prof. Suha Kwak in the Computer Vision Lab
- Research interests: computer vision, data-efficient learning, self-supervised learning, and knowledge distillation

POSTECH Feb. 2017 – Feb. 2021

B.S. in Computer Science and Engineering

Publications

[1] **MemDistill: Distilling LiDAR Knowledge into Memory for Camera-Only 3D Object Detection** Oct. 2025

Donghyeon Kwon, Youngseok Yoon, Hyeongseok Son and Suha Kwak
IEEE/CVF International Conference on Computer Vision (ICCV)

[2] **Decoupled Finetuning for Domain Generalizable Semantic Segmentation** Apr. 2025

Jaehyun Pahk, Donghyeon Kwon, Seong Joon Oh and Suha Kwak
The Thirteenth International Conference on Learning Representations (ICLR)

[3] **Boosting Semi-supervised Video Action Detection with Temporal Context** Feb. 2025

Donghyeon Kwon, Inho Kim and Suha Kwak
IEEE/CVF Winter Conference on Applications of Computer Vision (WACV), **Oral Presentation**

[4] **Self-supervised Learning of Semantic Correspondence Using Web Videos** Jan. 2024

Donghyeon Kwon, Minsu Cho and Suha Kwak
IEEE/CVF Winter Conference on Applications of Computer Vision (WACV)

[5] **Leveraging Proxy of Training Data for Test-Time Adaptation** July 2023

Juwon Kang, Nayeong Kim, Donghyeon Kwon, Jungseul Ok and Suha Kwak
International Conference on Machine Learning (ICML)

[6] **Semi-supervised Semantic Segmentation with Error Localization Network** June 2022

Donghyeon Kwon and Suha Kwak
IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR)

Experience

Researcher, GenGenAI Mar. 2026 – Mar. 2027

- Research and development for Generative AI systems (Military obligation)

Graduate Researcher, Computer Vision Lab, POSTECH

Feb. 2021 – Feb. 2026

- Advisor: Prof. **Suha Kwak**
- Research on data-efficient learning for computer vision, including semi-supervised learning, self-supervised learning, and cross-modal knowledge distillation

Student Researcher, Samsung Advanced Institute of Technology

July 2023 – Aug. 2023

- Mentor: Dr. **Hyeongseok Son**
- Development of a LiDAR-to-Camera knowledge distillation method for 3D object detection

Research Assistant, Korea Institute of Science and Technology

June 2019 – Aug. 2019

- Advisor: Dr. **Suhyun Kim**
- Development of AI-powered typo correction for virtual keyboards

Professional Services

Reviewer, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR): 2023–2026

Reviewer, IEEE/CVF International Conference on Computer Vision (ICCV): 2023, 2025

Reviewer, European Conference on Computer Vision (ECCV): 2024, 2026

Reviewer, Conference on Neural Information Processing Systems (NeurIPS): 2023

Reviewer, International Conference on Learning Representations (ICLR): 2024–2026

Reviewer, IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI): 2025

Awards & Achievements

BK21 Best Paper Award, POSTECH CSE, 2026

- MemDistill: Distilling LiDAR Knowledge into Memory for Camera-Only 3D Object Detection (ICCV 2025)

Outstanding Reviewer, ICCV, 2025

BK21 Best Paper Award, POSTECH CSE, 2023

- Semi-supervised Semantic Segmentation with Error Localization Network (CVPR 2022)

Jigok Scholarship, POSTECH, 2017–2020
